

## Edoardo Calizza – *PhD in Ecological Sciences*

Associate Professor of Ecology, Dept. of Environmental Biology

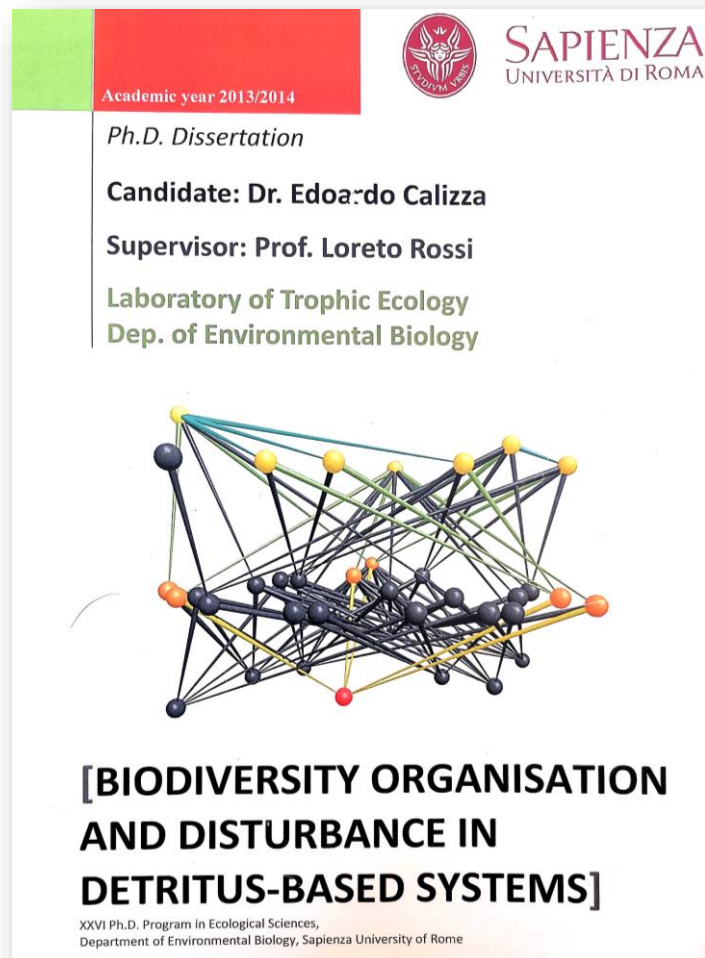

## Understanding the complexity of nature to conserve it and to manage it sustainably in an ever changing world

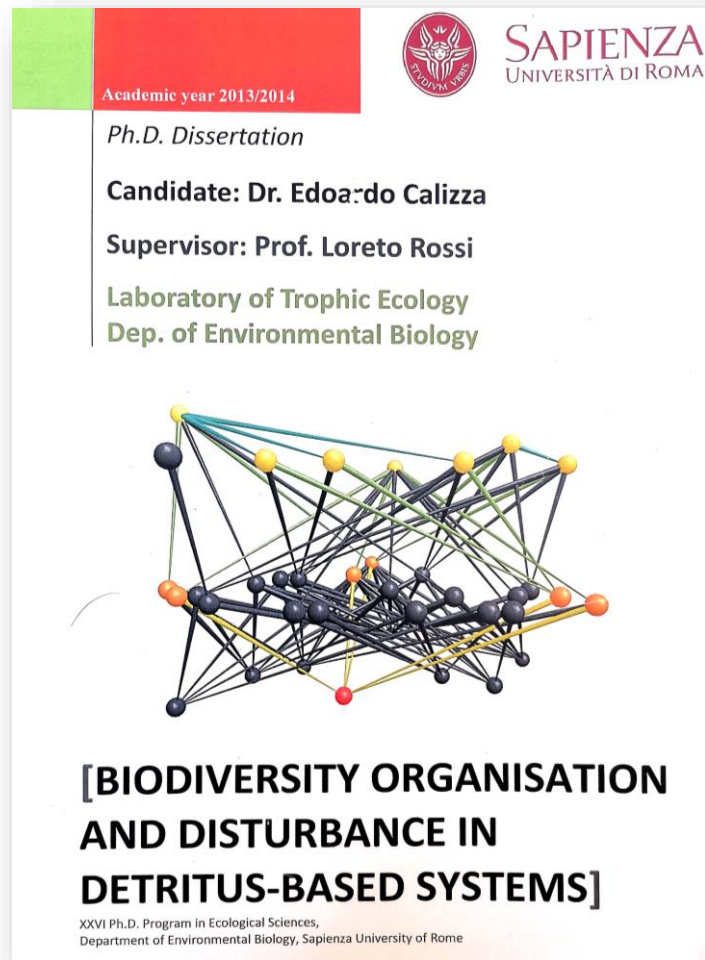

What I have learned during my PhD is at the heart of what I have achieved to date

How to formulate and test the right questions –  
the scientific method

What I have learned during my PhD is at the heart of what I have achieved to date

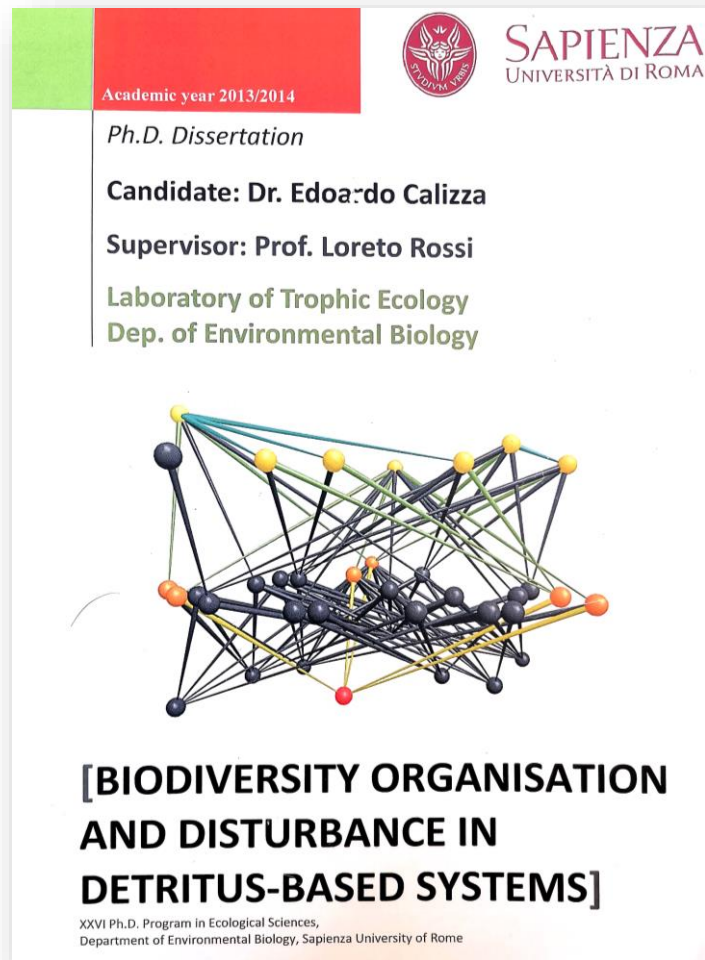

How to formulate and test the right questions –  
the scientific method

Practical and theoretical skills – how to learn

What I have learned during my PhD is at the heart of what I have achieved to date

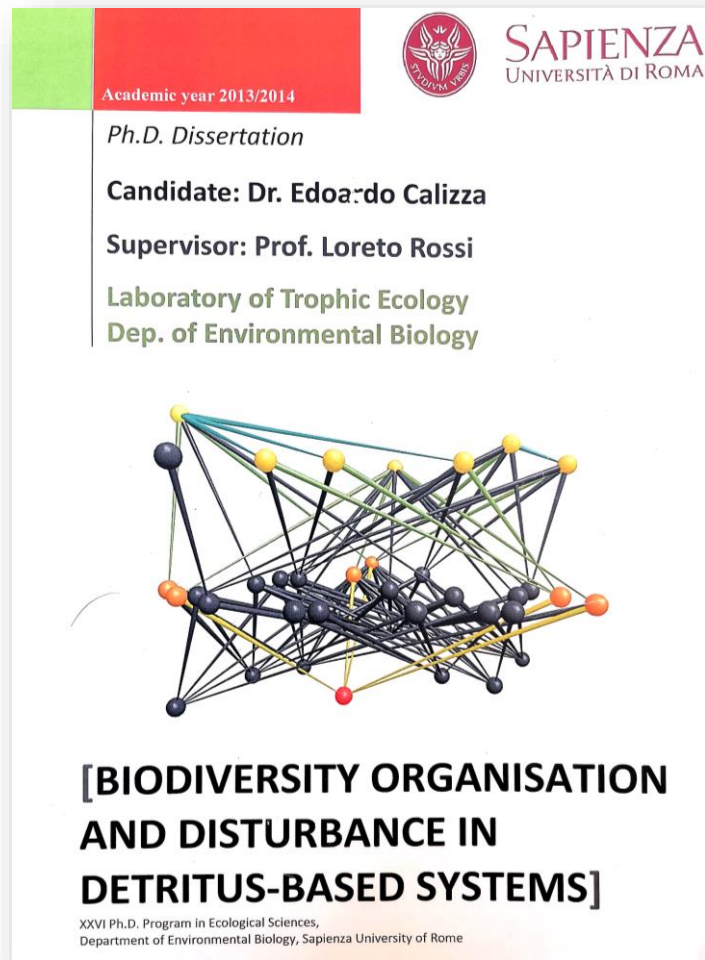

How to formulate and test the right questions –  
the scientific method

Practical and theoretical skills – how to learn

How to communicate – dissemination, teaching
