SAPIENZA FOR MARIE SKŁODOWSKA-CURIE ACTIONS

PROJECT ASSISTANCE AND OPPORTUNITIES IN SAPIENZA

INTERNATIONAL OFFICE
Research Mobility and European Programmes Sector
To promote and encourage the participation in the MSCA programme, in 2019 Sapienza launched the SEAL and ADD actions in the framework of Sapiexcellence programme which allowed to finance, over the course of two years, 12 fellowships for excellent young researchers.

Seal of SAPIExcellence - fellowships to be granted to Sapienza proposals submitted under the MSCA-IF call that have been awarded the “Seal of Excellence” by the evaluation Panel. Add SAPIExcellence - fellowships to extend by 1 year the duration of MSCA IF or ITN projects that have already been funded by the European Commission.

Furthermore, Sapienza has been dedicating for several years particular attention to researchers who participate in the MSCA programme through a policy of incentives and benefits.

Over the years, Sapienza has developed a range of services aimed at guiding and supporting candidates who intend to participate in MSCA calls.

INFODAY & WORKSHOP
Sapienza organizes every year, on the occasion of the launch of MSCA calls, information days directed to the whole academic community and training workshops specific for potential applicants.

KIT & MANUAL
The kits, developed by the staff of Sapienza, contain a range of documents useful for the preparation of proposals. Together with the Kit, an operating manual has been prepared to support the MSCA applicants at every stage of submission of a project proposal.

PRE-SCREENING
Sapienza implements a pre-screening service designed to provide the applicants a revision service of their individual proposals.
