Research Funding & Awards

We have allocated financial resources to support our members and their research, offering a range of funding opportunities to suit different career stages. In offering these grant schemes, we are seeking to raise the profile of regional research and its contribution.

MeRSA Grant | The role of the state in building sustainable financial centres: comparing London, Luxembourg and Singapore

Funding & Awards

Funding Institutional aggregates about **25,000 active funding opportunities** from over **5,500** government and privately funded organizations **across 70 countries**. The platform offers up-to-date data on **+6.5 million awards**.

Description

The purpose of these grants is to support the attendance of Genetics Society 'junior scientist' members at conferences on research in Genetics. The scheme has three main streams: (A) to support attendance at meetings organised directly by the Genetics Society or sponsored by the Society as a Special Interest Group (SIG); (B) to support attendance at non-Genetics Society meetings; and (C) to support attendance of virtual conferences.

Search tips

- The basic search includes Boolean Operators in capital letters: AND, OR and NOT and round brackets.
- The wildcard (*) finds multiple words entering a few characters.
- Using the singular form of a word in your search finds both the singular and plural forms for most words. For example, heart attack finds results listing heart attack and heart attacks.
- To find documents where your search terms appear together, enclose your phrase in double quotes. For example, “stem cell” returns documents with both stem and cell. Without double quotes, stem cell returns documents with the words either stem or cell or stem and cell throughout the document and not necessarily together.

Description

The global objective of this call for proposals is to support civil society action for women, men, girls, and boys, in all their diversity to fully enjoy and exercise their equal economic, labour and social rights in Timor-Leste.

The specific objective of this call for proposals is that Timorese women, particularly the most vulnerable, in all their diversity have improved access to entrepreneurship opportunities, including social entrepreneurship, alternative livelihoods, strengthened participation in the green, circular economy, and strengthened their voice and agency.

The priorities of this call for proposals focus on three domains: women's access to economic assets, services and opportunities; enabling environment; and women's voice and agency.
